

Pathan Siddiq

+91 93479 69685 | siddiqpathan601@gmail.com | github.com/siddiqpathan601 | linkedin.com/in/siddiq601

Professional Profile

Software Engineer with hands-on experience developing scalable full-stack applications and high-performance RESTful APIs using the MERN stack (MongoDB, Express.js, React.js, Node.js). Strong foundation in Data Structures, system design fundamentals, and backend architecture. Experienced in building production-ready web applications, designing reusable components, and collaborating in Git-based development workflows to deliver reliable, user-focused solutions.

Technical Skills

Programming: JavaScript (ES6+), TypeScript, Python, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux
Backend: Node.js, Express.js, REST APIs, JSON, HTTP, API Design, JWT & Robust Authentication
Database: MongoDB, PostgreSQL
Computer Science: Data Structures (DSA), OOP, DBMS, System Design
Tools: Git, GitHub, Postman, VS Code, Vercel, AWS (S3/EC2)
Soft Skills: Problem Solving, Code Quality, Clean Coding & Team Communication

Professional Experience

Associate Software Engineer — Trangla Innovation Pvt. Ltd., Hyderabad *July 2025 – Present*

- Developed and maintained RESTful backend services using Node.js and Express.js for internal and client-facing applications.
- End-to-end development of full-stack web applications for clients, focusing on scalability and clean code.
- Architected secure REST APIs and integrated them with responsive React-based frontends.
- Implemented robust authentication systems and secure data handling protocols.
- Optimized application performance, reducing load times through efficient component structure and caching.

Projects

HallowByte Resume Builder *Mar 2025 – Jun 2025*
[Live](#) | [GitHub](#)

- Developed a dynamic, full-stack resume builder allowing users to create and customize professional templates.
- Integrated backend APIs for persistent user storage and secure PDF generation using client-side libraries.
- Utilized React state management to provide real-time editing and preview features.

Developer Portfolio Website *Jan 2026*
[Live](#) | [GitHub](#)

- Built a high-performance portfolio using Next.js for SSR and Tailwind CSS for styling.
- Achieved high SEO scores and accessibility ratings through semantic HTML and image optimization.
- Designed a modular project showcase system for easy updates and scalability.

EliteStays Hotel Booking Platform *Feb 2026*
[GitHub](#)

- Developed a backend booking system using Node.js, Express.js, and MongoDB.
- Implemented JWT authentication and protected routes for secure user operations.
- Built interactive UI workflows for property searching, filtering, and reservation management.

Education

Vasireddy Venkatadri Institute of Technology *2021 – 2025*
B.Tech — Electrical & Electronics Engineering **CGPA: 7.9**

Sri Chaitanya Junior College *2019 – 2021*
Intermediate — MPC **Percentage: 75%**

Achievements

- Open Source:** Active contributor on GitHub with 10+ repositories focused on full-stack development.
- Deployment:** Successfully deployed and maintained 3+ production-ready web applications on Vercel/AWS.
- Problem Solving:** Solved 200+ challenges related to Data Structures and Algorithms on coding platforms.
